Use(s):	Multiple Family Dwelling House
Significance:	Architecture
Area(s):	
Designation(s):	
Building Materials(s):	Roof: Asphalt Shingle Wall: Vinyl Siding; Wood Foundation: Stone, Uncut

The Massachusetts Historical Commission (MHC) has converted this paper record to digital format as part of ongoing projects to scan records of the Inventory of Historic Assets of the Commonwealth and National Register of Historic Places nominations for Massachusetts. Efforts are ongoing and not all inventory or National Register records related to this resource may be available in digital format at this time.

The MACRIS database and scanned files are highly dynamic; new information is added daily and both database records and related scanned files may be updated as new information is incorporated into MHC files. Users should note that there may be a considerable lag time between the receipt of new or updated records by MHC and the appearance of related information in MACRIS. Users should also note that not all source materials for the MACRIS database are made available as scanned images. Users may consult the records, files and maps available in MHC's public research area at its offices at the State Archives Building, 220 Morrissey Boulevard, Boston, open M-F, 9-5.

Users of this digital material acknowledge that they have read and understood the MACRIS Information and Disclaimer (<http://mhc-macris.net/macrisdisclaimer.htm>)

Data available via the MACRIS web interface, and associated scanned files are for information purposes only. THE ACT OF CHECKING THIS DATABASE AND ASSOCIATED SCANNED FILES DOES NOT SUBSTITUTE FOR COMPLIANCE WITH APPLICABLE LOCAL, STATE OR FEDERAL LAWS AND REGULATIONS. IF YOU ARE REPRESENTING A DEVELOPER AND/OR A PROPOSED PROJECT THAT WILL REQUIRE A PERMIT, LICENSE OR FUNDING FROM ANY STATE OR FEDERAL AGENCY YOU MUST SUBMIT A PROJECT NOTIFICATION FORM TO MHC FOR MHC'S REVIEW AND COMMENT. You can obtain a copy of a PNF through the MHC web site (www.sec.state.ma.us/mhc) under the subject heading "MHC Forms."

Date (month/day/year) June, 1992

ARCHITECTURAL DESCRIPTION ☐ see continuation sheet

Describe architectural features. Evaluate the characteristics of this building in terms of other buildings within the community.

This house is unique in the Hildreth Corner area as the neighborhood's only example of an early twentieth-century double house. It is a large 2 1/2-story building with a pair of ridge chimneys. A two-story rear wing with a one-story extension behind it abuts the rear of the house. The facade is four bays wide, with paired entries, each with a single-light glass-and-panel door. A shallow-pitched gable rises over the center of the facade; the roof profile is animated by a pronounced "kick" at the eaves. What appears to be the only remaining original window here is a 6-over-6-sash on the facade. The cornice is boxed, with returns on the gable ends.

HISTORICAL NARRATIVE ☐ see continuation sheet

Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.

#709-711 Lowell Road was built by Nellie Worthley, a teacher in the Concord schools. She was the daughter of farmer Hiram Worthley (see #648 Lowell Road). Part of the house was occupied for a time by her brother, Arthur B. Worthley.
